Libraries

Below are the link to the libraries for development for certain UI elements that you can find in the Design Kit, so if you are using them in the mock up, do let the developers know which library they should use.

Quick Return *https://github.com/LarsWerkman/QuickReturnListView*

Wizard Pager *https://github.com/TechFreak/WizardPager*

NotBoring Action Bar *https://github.com/flavienlaurent/NotBoringActionBar*

Glass Action Bar *https://github.com/ManuelPeinado/GlassActionBar*

Fading Action Bar *https://github.com/ManuelPeinado/FadingActionBar*

PagerSlidingTabStrip *https://github.com/astuetz/PagerSlidingTabStrip*

HoloGraphLibrary *https://bitbucket.org/danielnadeau/holographlibrary/wiki/Home*

PullToRefresh *https://github.com/chrisbanes/ActionBar-PullToRefresh*

Crouton *https://github.com/keyboardsurfer/Crouton*

Card Library *https://github.com/gabrielemariotti/cardslib*

Color Picker *https://github.com/flavienlaurent/colorpicker*

Date Picker *https://github.com/flavienlaurent/datetimepicker*

Showcase View *https://github.com/Espiandev/ShowcaseView*
